Did you know?

Regular visits to your eye care professional may benefit more than your eyesight—they may help contribute to your overall health by potentially catching serious medical problems.⁴

Consider this:

We avoided going to the eye doctor due to the high cost. Thanks to **vision insurance**, we saved on eye exams and new eyewear for the whole family.¹ Our child is adjusting to new glasses, and I love my contact lenses. Recently, when I had my own eye exam, my doctor caught the early signs of diabetes,⁴ so I followed up with my physician right away.

This is a hypothetical example for illustrative purposes only. MetLife does not claim that these are typical results that members will generally achieve.

Here's how much you could save¹ with MetLife Vision:

Vision service ⁵	Average cost without a vision plan ⁵	Average cost with MetLife Vision Insurance
